Background

At Saint Cecilia's Church of England School, we are committed to working together to provide an inspirational and exciting learning environment that will 'ignite the spark of learning', for all children. Our core values of leading learning, love of learning, team and belonging endeavour to provide all members of the school community with a wide range of learning opportunities, whatever their ability or need. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment.

This Accessibility Plan seeks to ensure compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting of progress of the Accessibility Plan.

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that "schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation".

According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is structured to complement and support the school's Equality Objectives, and will similarly be published on the school website.

Objectives

Saint Cecilia's School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to taking positive action in the spirit of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

The school recognises and values parent's knowledge of their child's disability and its effect on their ability to carry out everyday activities and respects the parent's and child's right to confidentiality. The Accessibility Plan aims to improve access for disabled pupils, staff and visitors and seeks to make reasonable adjustments to accommodate their needs where practicable.

The Accessibility Plan contains relevant and timely actions to:

- Increase access to the curriculum for pupils with a physical disability and/or sensory impairments, expanding the curriculum as necessary to ensure that pupils with a disability are as equally prepared for life as the able-bodied pupils; this covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits – it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe;
- Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary – this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;
- Improve the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

This Accessibility Plan should be read in conjunction with the following other school policies, strategies and documents, including:

- Behaviour Management Policy
- Curriculum Policies
- Critical Incident Plan
- Equal Opportunities Policy
- Health & Safety Policy
- School Improvement Plan
- Disability and Special Educational Needs Policy
- Teaching and Learning Policy

Wherever possible, the Resources Committee will allocate resources to implementing the accessibility plan. However, with pressures on school funding, it may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans.

The Accessibility Plan will be monitored by the Resources Committee
